

WW 6 - Trail Via Algarviana

302 KM

ASSOCIAÇÃO
DE CAMINHADAS
DO ALGARVE

Die Via Algarviana ist ein insgesamt 302 km langer Weitwanderweg, auch bekannt als GR13. Der Start ist in Alcoutim, nahe der spanischen Grenze und das Ende am Cabo de Sao Vicente. Die Route führt durch die Berge der „Serra do Caldeirao“ und die „Serra den Monchicque“, durch herrliche Waldgebiete und ländlich geprägte Orte. Insgesamt besteht die Via Algarviana aus 14 Etappen zwischen 15 und 30 Kilometern. Unterkünfte stehen nach jeder Etappe zur Verfügung.

Pro Etappe ein IVV-Teilnahmestempel sowie die IVV-Kilometerwertung.

Auskünfte: Charles Pauwels rpauwels@pt.lu

The "Via Algarviana" is a Long Distance Path, with about 300 km in its main axis, going through 11 municipalities in the Algarve. Divided into 14 sectors, the Via Algarviana also has 5 new Links that add another 100 km to the grand total in route, as well as 12 new complementary pedestrian routes with more than 120 km to offer. Besides walking, the whole extent can be covered on mountain bike or even with the help of donkeys trekking.

Considered the "backbone" of the regional network of pedestrian routes of the Algarve, this Route starts in Alcoutim (north-eastern Algarve) and goes all the way to Cape St. Vincent, the most south-western point in Continental Europe. One can also do the trail in the opposite way, as it is signalled in both directions. It covers all of the inland Algarve, through places of great ecological and scenic value, many of them part of the Natura 2000 Network (Guadiana River, Caldeirão range, Monchique range, Vicentine Coast), as well as towns and small villages that, while many uninhabited, still allows us to get in touch with many customs and cultural traditions of the region.

Along the path one can also visit some of the relevant assets of the historic heritage of the region, such as castles and megalithic monuments, as well as the natural heritage, which includes many rare and endangered species of fauna and flora. Get on your way to discover and dare to know "Via Algarviana", contemplating everything that this territory has to offer, making this a route to remember!

One IVV validation for the IVV participation booklet and one validation for the IVV km booklet per stage.
