Number 022

SPECIAL EDITION

Today, Thursday, April 11, a new chapter in the history of the IVV begins with the launch of a new Internet portal, a searchable online database for our many sporting events around the world. Walkers will find some information already available, entered for testing purposes. The online database portal (www.ivv-online.org) will publish information concerning our sports events and programs. IVV news and announcements will continue to be available at www.ivv-web.org. An active link to the new online web address will also be found in the bottom right corner of every page on the existing website as of noon (12:00 - UTC).

What may you expect to find in the online database?

- For the moment, the information for 17 countries has been entered, either for Events or Walking Trails, or both. The display language may selected at the very bottom of the page. Visitors may view the online portal in three languages (DE, EN, FR), with five more to follow.
- Four countries already have a large number of Events and Walking Trails entered: Canada, France, Germany, Luxembourg. In other cases, fewer events or contact information only are available, as entered by the IVV office for testing purposes.
- The amount of information shown may vary from country, according to what they have decided to share and how they want to share it. Some members' information may not yet show, if it is at a future date, or still subject to revision or completion.
- The number count of Events and Walking Trails shown on the maps may not yet be accurate, pending changes to the automatic creation of geotags. The count shown for both in the list on the left side of the screen is accurate. You may enlarge the map to see particular locations.

- Walks information - from the Menu selection bar, top right, choose the type of information you are looking for: Events or Walking Trails. Note that each type has a sub-menu:

Events: (i) Single-day events: these may be for walks, swimming or cycle events. (ii) Guided Walking Days: walks that are, in fact, conducted with a personal guide, a set of printed instructions, or an electronic map. (iii) Guided Walking Weeks - as for Guided Walking Days, but last a week or more.

Walking Trails: (i) Permanent Trails: those walking routes that are open for an extended period of time. (ii) Round and Long Distance Walks: long, circular walks with minimum distance of 80 km.

Thanks to the IVV-Digital Committee for their vision and hard work over the past two years: Committee Chairman - Michael Mallmann (DVV), Guy Borsenberger (FFSP), Emil Danemark (FBSP), Graham Fawcett (IVV), Georges Kintziger (FLMP), Walter Motz (IVV) and Tanja Müller (IVV).
